**CAPABILITY STATEMENT**

**Core Capabilities**

**Industrial Testing Laboratory Services' Engineering Services Group (ESG), formerly Outage Services Group (OSG),** was established to provide qualified and certified inspection and examination personnel to nuclear facilities and utility industries. Our personnel are required to meet the codes and standards imposed by federal regulations.

Training services include but are not limited to:

Nondestructive Examiners

- Magnetic Particle Testing
- Liquid Penetrant Testing
- Ultrasonic Testing (Straight Beam and FAC)
- Visual Testing

Quality Control Inspections

- Visual Weld
- Mechanical
- Electrical and I&C
- Civil and Coatings

**Past Performance**

We have provided our services to the following domestic nuclear utilities: Duke Energy, Entergy, First Energy, Xcel, NextEra, Talen Energy, Dominion Power, American Electric Power, and prime contractors to the defense nuclear industry, including BPMI and BMPC.

**Reduction of Overhead Costs through:**

***“Resourcing”***

- Contract personnel
- Responsiveness to customer needs
- Experience in anticipating customer loading
- Performance based personnel testing
- Logistics and resource management
- Training

**Company Data**

ITLS has been a provider of NDE, mechanical, and metallurgical examination services to both the naval nuclear and commercial nuclear industry since 1959.

Our Engineering Services Group (ESG) was formed to supply personnel and services to meet the needs of the commercial and national defense industry.

Due to our combination of navy nuclear and commercial nuclear industry experience, we made the strategic decision to start the Engineering Services Group.

**Pertinent Codes**

- Certified as a small business
- NAICS 541380
- ISO-17025 (Accredited by A2LA)
- NIAC Audited
- NQA-1
- NDT Personnel Qualifications to:
  - SNT-TC-1A w/ ASME III
  - ASNT CP-189
